QUALITY SERVICES

WEEKLY COMMUNICATION, 07/16/98
Steve Wall, Office of Quality Services

M. Waldron
To Steve - Beth - Past on list

NGA

I was unable to confirm Eric Burkland as a speaker for the NGA Conference as he is on vacation and unreachable until Monday. According to his Secretary he will be out of town Sunday, August 2, anyway so I will adjust your talking points accordingly.

STATE QUALITY AWARD

I sent you some information on the team developing a state quality award for Ohio based on Malcolm Baldrige criteria, including my recommendation that our office continue to support these efforts and that you endorse it as a great thing for Ohio. In review, the award will recognize organizations with high performance workplaces in the categories of manufacturing, small business, education, health, and state government. The real value is not in winning an award, but in the process of having your organization assessed by knowledgeable auditors. We have been piloting similar but smaller efforts in some state agencies and I think this will be a great benefit to QStP efforts when state agencies choose to apply for the award.

As a side note, 43 other states currently have this type of award, although primarily for the private sector only. The NGA endorsed this activity and did some research on it about three years ago. As I said earlier, previous Ohio efforts have not been complete or worth endorsing but this is truly an Ohio driven, well planned out effort worthy of your support. It will promote quality in Ohio for years to come.

I met with the group this week and they are now ready to announce their plan — and it would be great to hold a press conference as you suggested when you responded to my previous weekly.

Specifically, the group would like your support in the following way:

- * Hold a news conference announcing the award and include the members of private industry who will endow the award. *Get it done ASP* *OK*
- * Endorse this award as Ohio's key single state wide organizational performance excellence award. *OK*
- * Sign a letter that will be sent to Ohio companies to announce the award and encourage participation. *OK*

I also think we should continue to support their efforts with state employees helping, including appointing a cabinet member to serve on their board. Our office is excited about teaming with this group. Hopefully the next governor would consent to presenting the award at the annual awards ceremony.

It would be good to plan the press conference quickly, and I would be glad to provide a more detailed briefing at that time.

Governor
